Week 10: Celebration & Certificate!

👵 Grandma Approved · 👩 Auntie Approved · 🏠 Family Approved

So simple that grandparents can support learning with full confidence — no tech experience needed. One scan of the QR code and your little one is learning immediately.

🌐 Adventurers™ Program

Elementary Explorers – Grades 3 Through 5

Building the skills, habits, and confidence that carry students forward for life.

At SPARKLAB, we believe every elementary student deserves to feel capable, confident, and excited about learning. Our experienced educators guide **Adventurers™** through interactive lessons that deepen essential academic skills while building the **critical thinking, communication, and collaborative habits** that define lifelong learners.

Whether your child needs to catch up, keep up, or move ahead — the **Adventurers™ Program** meets them exactly where they are. With engaging, grade-appropriate challenges and a flexible virtual format that fits into any summer schedule, SPARKLAB transforms summer from a season of learning loss into a **season of growth, achievement, and discovery**.

CEEQ – Made for Elementary Life

Log in anytime, finish quickly, and see real results — whether your child is at home, at a cousin's house, or on a road trip. SPARKLAB fits summer, not the other way around.

WHAT YOUR CHILD WILL LEARN

Reading Comprehension

Strategies for understanding, analyzing, and discussing a range of texts.

Multiplication & Problem Solving

Math fluency, multiplication tables, and real-world problem-solving skills.

Science Experiments

Hands-on inquiry-based science concepts presented through virtual exploration.

Writing Skills Development

Paragraph structure, descriptive writing, and building a strong writing voice.

STEM Challenges & Labs

Age-appropriate coding concepts, engineering thinking, and STEM exploration.

Project-Based Learning

Real-world projects that develop collaboration, creativity, and independence.

Weeks 3-4: Math Mastery
- Weeks 5-6: STEM Labs

Weeks 7-8: Writing Projects

Week 9: Review & Skill Check
- Week 10: Showcase & Certificate!

What Adventurers Families Say

"I was surprised by how independent my little sister became. She logs in, follows the lessons, and finishes with very little help. Everything is explained so clearly it feels like a teacher is guiding her every step of the way." — **Older Sibling, Grades 3–5 Parent**

Explorers™ Program

Middle School Growth Track — Grades 6 Through 8

Keeping middle schoolers sharp, independent, and academically ahead all summer long.

Middle school is a critical turning point — and SPARKLAB's **Explorers™ Program** is built for exactly this moment. Our experienced educators guide students through **rigorous, engaging virtual lessons** that strengthen core academic skills while developing the analytical thinking, independent study habits, and intellectual confidence that define successful high school students.

Whether your child needs algebra prep, stronger writing skills, or science enrichment, the **Explorers™ Program** meets each student at their level. **Interactive, self-paced, and accessible on any device** — SPARKLAB keeps middle schoolers learning all summer without the stress, the schedule, or the high cost of traditional tutoring programs.

CEEQ for Middle Schoolers

Your teen can complete a full lesson in 30 minutes — from the couch, the car, or Grandma's kitchen table. No supervision needed. No nagging required. Just real learning, on their terms.

What Explorer Families Say

"Finding a program that keeps middle school students interested isn't easy — but SPARKLAB does exactly that. My son enjoys the independence while staying academically sharp. Learning has never been this convenient." — **Explorers Parent, Grades 6–8**

High School Success Track – Grades 9 Through 12

Preparing tomorrow's leaders with college-ready skills, SAT prep, and real-world confidence.

High school students face more pressure than ever — and SPARKLAB's Tribalizers™ Program is built to help them rise to the challenge. Our certified educators deliver **focused, college-preparatory virtual lessons** that build the advanced academic skills, independent study habits, and leadership mindset that high school students need to succeed — in school, in college, and in life.

Whether your student needs SAT/ACT prep, algebra II support, college essay guidance, or simply wants to stay academically sharp and ahead of the curve this summer, the Tribalizers™ Program delivers — **on any device, at any time, at their own pace**. No expensive tutors. No rigid class schedules. Just smart, effective, flexible learning that fits around work, sports, family time, and summer freedom.

CEEQ for High Schoolers

Your student can complete a full lesson between practice, work, or family commitments. Smart, self-paced learning that builds real college-readiness — without adding stress to an already full schedule.

WHAT YOUR STUDENT WILL LEARN

College & Career Readiness

Application strategy, college essay writing, career exploration, and goal-setting.

Advanced Math Support

Algebra II, Geometry, Pre-Calculus, and SAT Math prep strategies and practice.

Advanced Writing & Essays

Research papers, argumentative essays, college personal statements, and editing skills.

STEM Innovation Projects

Real-world STEM applications, engineering design thinking, and innovation challenges.

SAT / ACT Preparation

Targeted test-taking strategies, practice, and score improvement techniques.

Leadership & Responsibility

Inner Genius leadership training — building the character and habits of future leaders.
